### FISHERY FACTS.

A Silly Rumor that Grant will be Seated Instead of Garfield.

Revived by the Bug-a-Boos of the Missouri Electoral College.

Some of the States Show Up Their Official Election Returns.

General Telegraphic News—Rescued Crews—Other Intelligence.

### THAT FISHY STORY AGAIN.

That Grant is to be Elected Instead of Garfield.

ST. LOUIS, Nov. 11.—E. P. McCarty one of the Missouri democratic electors, advances the rather startling statement that the democratic electors are thinking of giving their votes to Grant with the design of drawing off enough republican votes to make him president. It is claimed the movement is of a southern origin, but how wide spread is not known. The statement is made that with forty-seven stalwart votes the democrats can elect Grant, and they expect to get these votes from such men as Conkling, Cameron, Logan and others who are alleged to be unfavorably impressed with Garfield on account of his political character and quasi religious pretensions.

### Important Railroad Meeting.

NEW YORK, Nov. 11.—There was a special meeting of the Central Pacific and Union Pacific directors, and the largest stockholders here last night, at the residence of President Huntington, of the Central Pacific road, for the purpose of arranging for the consolidation and amalgamation of the two roads and branches.

Jay Gould was present and it is rumored that last night that a basis had been arranged and the consolidation scheme decided upon, the details of which were to be submitted to the stockholders of the roads.

It thought that the shipment of over 30,000 shares of the Central Pacific stock to London last week shows that the managers expect to float stock in Europe.

### A Young Lady Murdered.

NEW YORK, Nov. 11.—Late yesterday afternoon Andrew Gillen, a young lawyer, called and desired an interview with Miss Sigerson, a sister of Assistant Corporation Attorney Sigerson. She had before received his proposal to marriage. Mrs. Sigerson and her daughter talked with him a while, and then desired him to go away. He did not go at once, but continued to plead for Miss Sigerson's favor. At length he threw his left arm about her neck and in the presence of her mother, drew a pistol from his pocket, placed the weapon against her head and sent a bullet through her brain. Mary fell dead at her mother's feet and Gillen rushed from the house. He was subsequently arrested and taken to the Tombs.

Rescued Crews—New Line of Steamers Between New York and Stettin.

NEW YORK, Nov. 11.—The steamship City of Alexandria, now in Vera Cruz, by way of Havana, brought the crews of four brigantines, which were driven ashore in the Gulf of Mexico early this month.

A new line of fast steamers between New York and Stettin will begin running to-day to be called the Stettin-Lloyd's line, owned in Germany, and the steamer Katie will be the first boat to leave this city.

### John Sherman's Sour Grapes.

WASHINGTON, Nov. 11.—Secretary Sherman's letter to Dalmell, in which the former tacitly acknowledges being a candidate for the senate, and says he will make the race in order that General Garfield may not be embarrassed in the formation of a cabinet, is a source of much comment in political circles here. The secretary says he does not particularly desire to remain at the head of the treasury department.

### Sharon Ripped.

WASHINGTON, Nov. 11.—Senator Sharon, of Nevada, is being soundly ripped among the republicans here. The blame of losing the electoral vote of Nevada, as well as the senatorship, is laid at his door on account of the manner in which he neglected his duties as senator. It is yet a question whether Fair, elected to succeed him, will vote with the democrats or republicans, although it is most likely he will train with the former.

### HORRIBLE DEATH.

A Thirteen-Year-Old Boy Caught in Machinery and Twisted Into Fragments.

CLEVELAND, Nov. 11.—A fatal accident of a most shocking character occurred at 10:40 o'clock this morning at the machine cabinet works, 122 and 124 Elm street, west side. A 13 year old boy named Wood, who had been employed at the place for the past year and a half was assisting in doing some painting in the immediate vicinity of the main belt, when in some unknown manner he was caught by a fly-wheel and whirled around with the velocity of lightning. The trunk of his body was hurled with fearful violence against the ceiling, while the head fell to the floor, entirely severed from the body. Death was almost instantaneous. The unfortunate lad lived on Elm street, close by, his father being also an employee of the cabinet works. Coroner Isaac was summoned but on his arrival decided an inquest unnecessary, as death was clearly the result of an accident. The body is at Hogan & Harris' morgue, on Bank street.

### GENERAL HANCOCK.

He Will Not Talk Politics.

NEW YORK, Nov. 11.—A reporter yesterday attempted to get an interview with General Hancock on Barnum's new fraud squeak, but with poor success. On approaching him the general smiled, but positively declined to say anything about Mr. Barnum or the recent election, as he said he had "something else to do and think about." He declared he had seen what the newspapers had said about the dispute; had read the Brooklyn Eagle's article, which declared he would not accept "the presidency on any such conditions" as Barnum and Kelly proposed; had read what General Pryor said about Barnum, and that this possibly was another mistake of his, but said he pleasantly, "I desire to say nothing myself." General Hancock's manner was most cheerful and pleasant, and he appeared anything but the conspirator his supporters are trying to make him appear. He was willing to talk about anything but politics, but that subject he was determined to avoid in whole or in part.

### The Morgue Benders.

ALLEGHENY, Pa., Nov. 11.—The jail here was occupied last night by a man and woman with a strange history. Their names are Wm. McGregor and Sarah Jane McGregor. They are the man and woman who were arrested in Nebraska sometime ago on suspicion of being old man Bender and his wife, the head of the terrible gang of murderers. They have walked or stolen rides this far on their way to New York, where one of their sons is living, and in the spring they expect to go back to their old home.

### What Hancock Says.

WASHINGTON, D. C., Nov. 11.—The Star says: A letter from General Hancock was received here to-day by an officer of the army who was on his staff. In the letter General Hancock says emphatically he has no lot nor part in the agitation in regard to throwing out the vote of New York nor will he have any. He is opposed to the agitation. He says and believes General Garfield was elected, and should be inaugurated without any fuss.

### A Judge Assaulted.

NEW YORK, Nov. 11.—District Attorney Drum yesterday assaulted and severely beat ex-Judge Morris for some remarks Morris had made about Drums' former life. The judge is more severely injured than at first supposed. His cheek bone is broken, and is internally hurt and is raising blood. It is intended to charge Drum before the grand jury now in session with assault with intent to kill.

### Official Counts.

COLUMBUS, Nov. 10.—The official vote of the November election in Ohio was canvassed to-day, and shows the following result: Garfield, 375,048; Hancock, 340,871; Weaver, 2,456; Bow, 2,616. Garfield's plurality, 34,177. Garfield's majority over all, 26,105.

INDIANAPOLIS, Nov. 10.—Returns from all the counties have been received. Garfield's plurality is 6,540.

ATLANTA, Nov. 11.—The Champion has the official returns from all the counties in the state except two, on the remote frontier. The vote footed up: Garfield, 110,516; Hancock, 56,917; Weaver, 18,330; Garfield's plurality, 53,609. This will be increased to about 62,000. The total vote of the state will be about 200,000, an increase of 62,000 since 1876. The greenback vote is about 9,000 less than two years ago.

### Can Part With Redpath.

DUBLIN, Nov. 11.—Lord Crickton, M. P., County Farnham, speaking at a meeting of the orangemen at Newton, Butler, said Ireland could well dispense with the services of Redpath, a man who had insulted the queen.

### THE MOREY LETTER.

Two Witnesses Arrested for the Alleged Perjury.

NEW YORK, Nov. 11.—After prisoners Morey and O'Brien had formally signed a confession of jury in the Morey letter case Justice Morgan committed them in default of \$5,000 bail each to await action of the grand jury. O'Brien was taken back to the tombs, and Morey's friends started out to look for bail. Papers were at once laid before the grand jury. The confessions are held back, it is said because they implicate persons not yet arrested.

[The persons named above, Samuel F. Morey and one O'Brien, were arrested yesterday afternoon on a charge of perjury, after having, it is alleged, confessed that the Morey letter was a forgery. A man who will swear to a statement and then confess that he swore falsely, cannot be believed under any circumstances, and now that the Philip case has assumed such a phase, it would be as easy a matter for the republican managers to bribe Morey and O'Brien to make a so-called confession, as it is claimed it was for the democratic committee to pay them for establishing the identity of H. L. Morey.]

### IRELAND.

Marching On.

DUBLIN, Nov. 11.—It is expected that the Boycott relief expedition will reach Claremorris at 2:30 o'clock this afternoon where the men composing it will be searched to ascertain whether they are armed. They will have to walk from Claremorris to Loughnaske, fifteen miles, as conveyances cannot be procured for them. A telegram from Ballina represents that great excitement prevails there in consequence of the report that fifty Orangemen would pass through that place for Boycott's farm. Firearms were purchased and carried by the bands of men to oppose the passage of the Orangemen. A meeting was hastily called. Revolvers were produced and most violent language against the government used.

DUBLIN, Nov. 11.—The expedition will be composed of two divisions from C. na and Manahan, twenty-five from each county, inclusive of the leaders. No disturbance at Balenore is apprehended as their are 9,000 soldiers in the vicinity.

### Voice of the Thunderer.

LONDON, Nov. 11.—The Times, in a leading editorial, this morning, says: It is certain the most important question considered by yesterday's cabinet council was whether all the citizens of Ireland can be protected by the ordinary machinery of the law. We have reason to believe those who are most directly responsible for the administration of the Irish have come to the conclusion that, without increasing the power of the executive the present state of things must not only continue but enlarge its borders and become daily more enterprising and audacious. The article recommends a suspension of the habeas corpus act as a remedy.

### A False Clerk.

NEW YORK, Nov. 11.—Wirt G. Harmon, confidential clerk to Lee, Tweedy & Co., 263 Canal street, has been arrested, charged with extensive robberies of goods from the firm. He confessed his guilt.

### Real Estate Transfers.

Adams—Edwin Huth to Cathrina Schneider, 10 acres in section 13, \$700.

Madison—Henry C. Martin to Michael O'Connor, property in Centerville addition, \$100.

Calhoun street, near the Mayer and Avenue hotels, is undergoing needed repairs.

### THE NAVY.

The Review Yesterday.

FORTRESS MONROE, Nov. 11.—The naval review yesterday was a success. The weather was clear and pleasant with fresh breeze from the southeast. At 9 o'clock, the steamer Dispatch, flying the president's flag from her main, came into the roads, followed closely by the Tallapoosa, carrying the flag of Commodore Earl English, chief of the bureau of equipment and recruiting. The Dispatch had on board the president and Mrs. Hayes, Secretaries Evans, Schurz and late postmaster General Key, with the members of their families and friends. Upon the president's arrival, the yards of the vessels of the fleet were manned, and a salute of twenty-one guns fired by the Tennessee and Minnesota. A salute of twenty-one guns was fired from the water battery at Fort Monroe. This was followed in quick succession by a salute of twenty-one torpedoes, which were fired from a temporary station near the shore, a novel experiment in the way of salutes. As the firing ceased the Marine band, from Washington, stationed on the balcony of the hotel, played "Hail to the Chief," in which they were joined by the band of the flag ship Tennessee. At 11 o'clock the president and party went on board the Tennessee, where they were received by Admiral Wyman and staff. The crew were beat to quarters where they were reviewed, after which they repaired to the spar deck to witness some broad sword exercises by some experts of the crew, and at 12 o'clock the president left the ship and returned to the Dispatch. The yards were again manned and a salute of twenty-one guns fired. At 1 o'clock the signal from the flag ship to prepare for landing was hoisted and the crews went at once to work, lowering away their boats. The water was quite rough so that it was found impossible, owing to this fact and a strong tide setting in, to form a line and advance simultaneously as at first proposed. The marine band and pioneer corps headed the procession. The entire number of the brigade was 1,800 men. At half-past three they took up the line of march for the fort. In the meantime, the five companies of artillery stationed here, headed by the band, marched down to the wharf to meet and escort the president and party into the fort, under command of Gen. George W. Getty, who was accompanied by his staff. A review of the troops followed. This practically ended the matter, and the sailors and marines returned to their boats and pulled away for the ships. The troops of the garrison then formed and escorted the president to the wharf, where the party embarked and returned to the Dispatch.

### Born En Route.

CLEVELAND, Nov. 11.—Maggie Beggan, a good looking young Irish woman, with a ticket from Toledo to Cleveland, was a passenger on Lake Shore train 8, which reached here at 2:45 o'clock yesterday afternoon. Before the train reached Clyde she was taken violently ill, and Conductor Pierce had a horrible suspicion aroused as to the nature of her disease. She was with difficulty removed to a Wagner parlor car attached to the train, and all the male passengers withdrew to other coaches. Luckily a physician from Norwalk was aboard the train. In less than five minutes after she was removed to the car she gave birth to a still born child. Upon her arrival here she was removed to the city hospital. She stated that she was married, that her husband lived in Toledo, and that she was coming to Cleveland for the benefit of her health.

### List of the Lost on the Zealand.

TORONTO, Nov. 11.—Following is the most complete list that can be obtained of the names of officers and men of the propeller Zealand believed to be lost in the gale of Saturday night: Edward Zealand, captain, of Hamilton; Thomas Deney, first engineer; St. Catharines; David Taylor, second engineer, Port Colborne; Jos. Malette, first mate, Montreal; Thos. Dorelegic, second mate, Cornwall; Thomas Armstrong, carpenter, Hamilton; Miss Frances, ladies maid, Montreal. Two deck hands were known on board as George and Jack, the former English and the latter belonging to Toronto. Capt. Thomas Zealand, brother of the deceased, and his son, have left for the north shore, to search the wreck for bodies.

### The Educational Bill.

PARIS, Nov. 11.—The decision of the extreme advanced left to adhere to the course which caused the ministry to resign, shows that Gambetta is no longer certain of commanding a majority in the chamber of deputies. The education bill, which the Government desired to place first on the order of the day contains provisions which the Government considers would obviate the necessity for immediate dispersion of the religious communities.

### Another Forgery.

Possibly from General Hancock.

NEW YORK, Nov. 11.—In an interview with General Hancock, at Governor's Island this morning, the general denied that a letter purporting to have been written by him, to an army officer at Washington, touching the New York vote, was written by him and said he was one of the few persons who could not discuss the presidential election at present without indecency. He also said if there was a letter in existence from him, purporting to be of that tenor, it should be produced.

Seven or eight days ago, Lizzie Bonner, of Adams county, laid a charge of bastardy against Winfield S. Marquart, and the latter was brought to this city and imprisoned. He has remained in confinement ever since, until to-day, when the complainant generously offered to arrest judgment if the prisoner would marry her. Winfield jumped at the opportunity, procured a license, and was married to Lizzie at about 2 o'clock in the county clerk's office, by Justice Tancey, in presence of a SENTINEL reporter and several county officials. Both the bride and bridegroom appeared to be about twenty-four or twenty-five years old.

The two last cases entered on the docket of the superior court are: Thomas Greer and David Wellbaum vs. Isaac Lauferty, Charles Burb and O. L. Brown, action to cancel note and injunction; Thomas Bradberry, David Wellbaum and Frederick Boehler vs. Isaac Lauferty, Charles Burb and O. L. Brown, action to cancel note and injunction. FOSTER'S FINE FURNITURE!

What a Sentinel Reporter Saw.

Tuesday afternoon a Sentinel reporter

was walking down Clinton street,

and coming upon the Clinton street

front of Foster Brothers' Department

Store, found the sidewalk piled seven

to eight feet high with Bedsteads,

Desks, Chairs, etc., some awaiting

shipment, some being loaded into

farmers' wagons, and others just

being delivered from the cars. It was

a bustling scene and calculated to

attract general attention. Directing

the rapid movements of half a dozen

clerks, who were seeking to clear the

obstructed sidewalks, we found Mr.

Foster himself.

"This, indeed, looks like a rushing

business," we said.

"Yes," was the reply. "We shall

handle to-day three full car loads of

goods, and as they all have to go up

or down one elevator, it is no light

job."

"Your furniture trade seems to be

assuming immense proportions," we

Some notion of the activity in

train dispatching in Chicago may be

gathered from the fact that eighty-

four passenger trains will enter and

leave the new Union depot on Canal

### SOMETHING NEW

A Union of Dramatic Action

Musical Description and

Comedy.

In Operatic Entertainment,

Introduced by Mr. J. A.

Butterfield.

Author of "The Widow Glass,

or The Romance of a

Summer."

Soon to be Presented in Fort

Wayne.

Any work which has for its object

a higher tendency for development

into a purer atmosphere of art-life

should be welcome to all lovers of

education and refinement. The purest

of all the arts, and the one most

potent for good is that of music. It

is a well known fact that a depart-

ment of music now exercising much

influence in moulding the sentiment

of the people of to-day is that which

forms a union of the dramatic and

lyric elements. It is the province of

this to appeal not only through the

medium of the ear by a succession of

pleasing sounds, but to associate with

it pictorial effects through the

medium of the eye and portray the

emotions through the histrionic art.

This combination also includes poetry,

and the union of the elements so as

to form a logical whole is designated

by the term opera. Opera is defined

as "a drama set to music for solo

singers, chorus, orchestra, scenery

and dramatic action. The words of

an opera are called the "book" or

"libretto." Opera dates

back to the fifteenth century. The

principal schools of opera are the Ital-

ian, in which the singing is the chief

thing; the French, in which the dra-

matic action is chief; the German,

which aims at complete union of ac-

tion, singing and musical description;

opera bouffe, in which the absurd and

laughable is aimed at. There is yet

a class of opera which may be said to

be a union of these, possessing to a

degree, all the elements before men-

tioned and in reality an outgrowth of

them, as much as Americans are the

outgrowth of the nations of Europe.

This form is now in its infancy and is

presenting itself to the American peo-

ple under the title of comedy opera,

and is a reflex of the national charac-

ter of Americans. At present such works

are few, but those which have made

their appearance, while not possessing

the ripe experience of the older

school, appeal directly to the music-

lover.

The American character is noted

for its keenness of appreciation of

wit, and it is a fact that the underly-

ing vein of satire in the "Finnegans

was much more keenly relished here

than on the other side; and if the

success of this work has left in its

### AMUSEMENTS.

HI HENRY'S SHOW.

The Grand opera house was well

filled last evening with an audience

of far more respectability and intelli-

gence than the entertainment given

deserved. The first part of the show,

which is usually the best, was misera-

ble. Twenty-five so-called jokes were

inflicted on the audience, and sixteen

of them, by actual count, were as old

as negro minstrelsy itself. The re-

maining nine may have been ancient,

also, but the writer happened never

to have heard them before. The

songs given by Billy Wade, Charles

Johnson and Billy La Clede

were very well rendered; and

P. C. Foy's tenor solo was perhaps

good of the kind, but it was a very

poor kind. Tom English's violin

playing was very fine. The dancing

throughout was first class, but good

dancing is so common now-a-days that

it hardly pays to attend a three hours

performance merely to witness this

portion of the programme. Tom

English proved a great success as a

manipulator of the bones. The

funny sketch entitled "Dr. Tanner

Eclipsed" was the most laughable
